Chapter 535 The Greatest Power

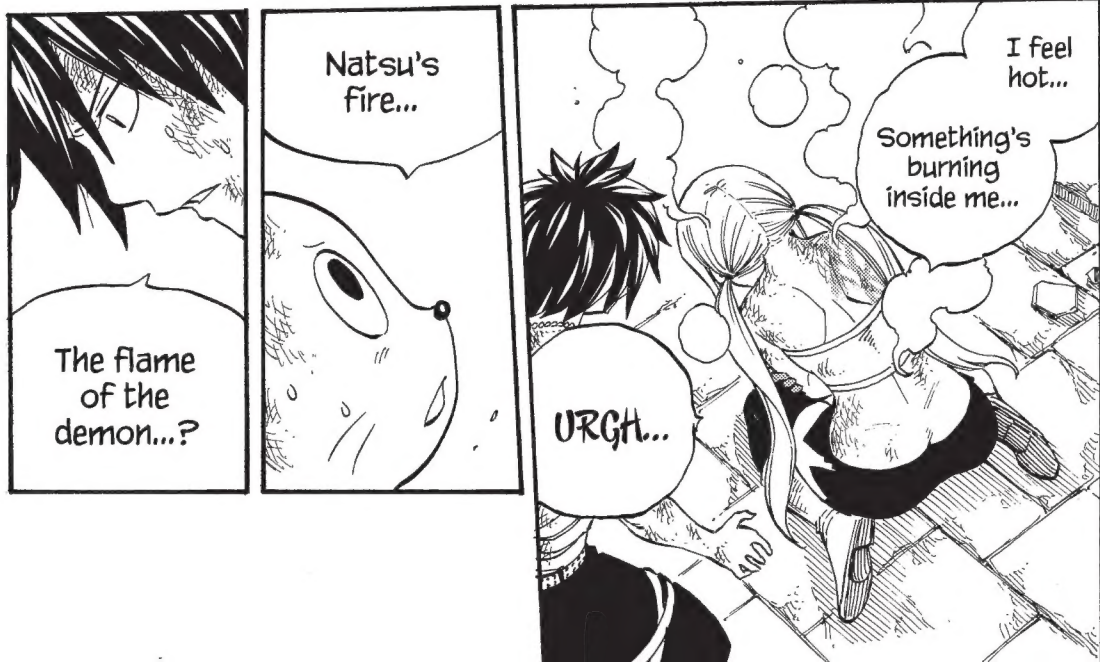

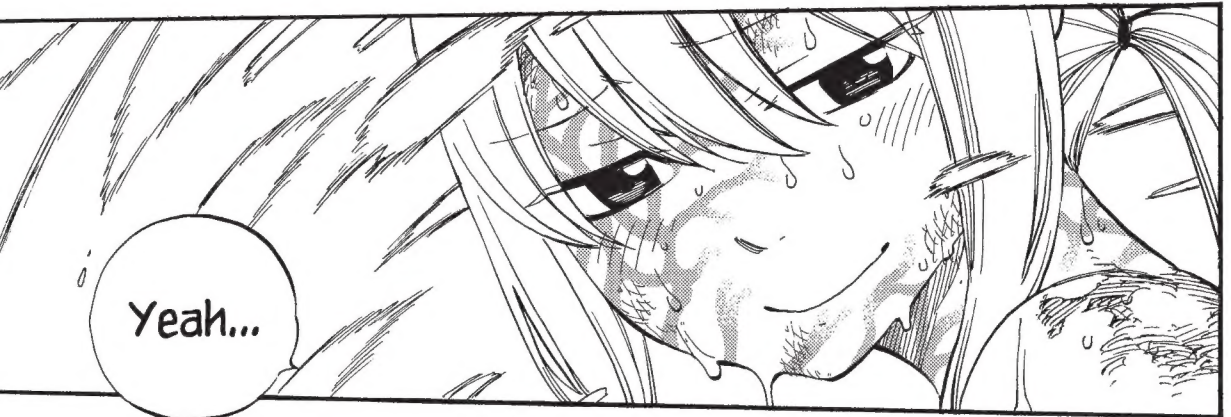

STORY THUS FAR.

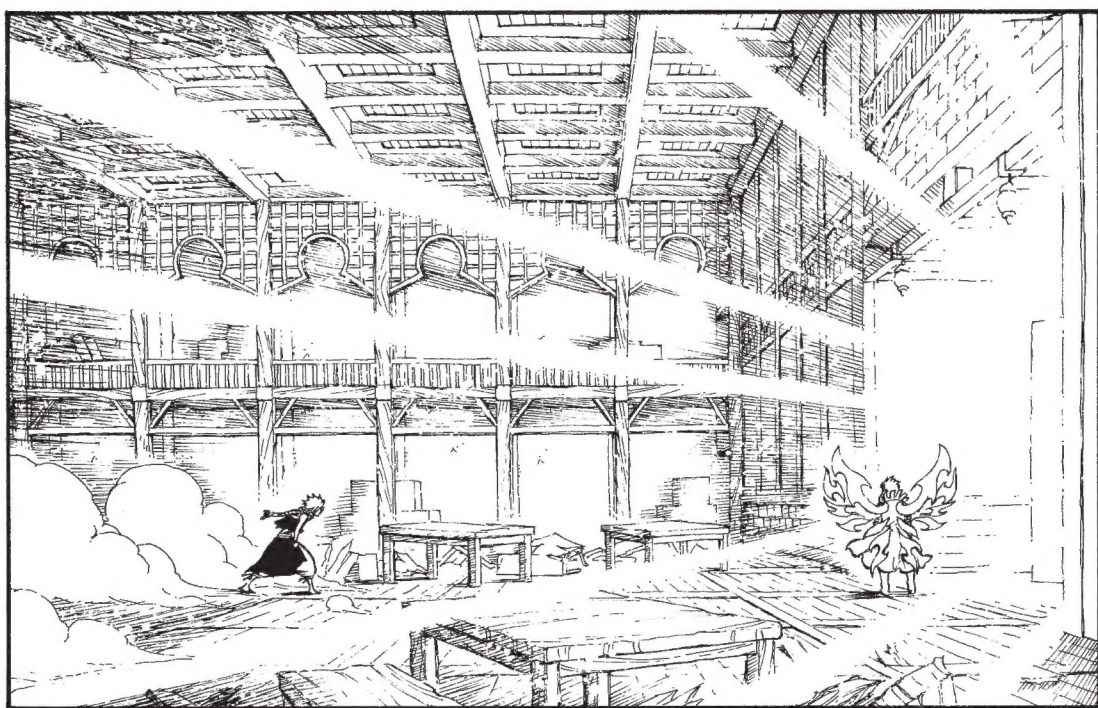

Zeref has sucked out Mavis's magic, Fairy Heart, and gained unlimited magic power for himself. He's also dealt a mortal wound to Natsu!! But the Book of E.N.D. is in Lucy's hands, and she rewrote the letters to bring Natsu back...so, gathering the last of his power, he stands up!! Meanwhile, Lucy is acting strangely... What does it mean to tamper with the Book of E.N.D.?!

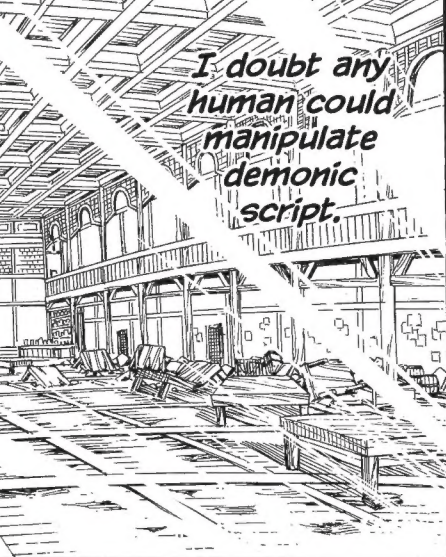

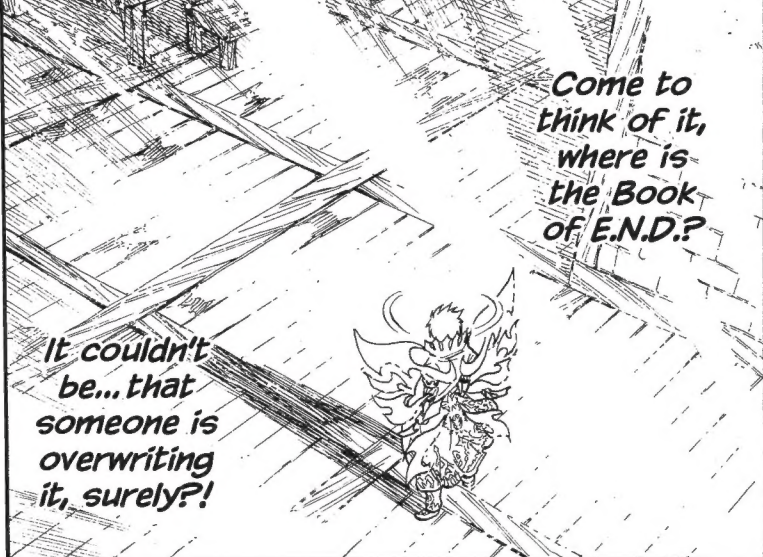

I doubt any human could manipulate demonic script.

Come to think of it, where is the Book of E.N.D.?

It couldn't be... that someone is overwriting it, surely?!

And even if one could, that human would be corrupted by it...

...and plunged into the darkness.

...it will be your last. No one overwriting your book can survive for long.

Miraculous as your recovery may be...
